

# Cabinet Cover™

Cabinet Cover™ is a tough, silver polyethylene film with a state of the art adhesive system that allows the film to be lifted and reapplied to the surface multiple times without losing the original adhesion level.

# Cabinet Cover™

## FEATURES, ATTRIBUTES AND BENEFITS:

- ★ Ideal protection for cabinets, appliances and other surfaces
- ★ Film can be removed or cut if access to plumbing or electrical is needed
- ★ Tough polyethylene film made to withstand some of the roughest circumstances
- ★ Adhesion level remains the same as the moment the film is applied, no matter how many times the film is lifted from the surface
- ★ Finally – a self-adhesive film created specifically for vertical applications on wood
- ★ Continuous protection from cabinet to microwave to stovetop
- ★ Will not damage painted or finished cabinets
- ★ Easy to install – simply roll film onto the cabinets
