

Deck Cover™ - Fire Retardant

Deck Cover™ is an industrial duty fire retardant protective covering designed to protect damage prone surfaces from worker activities.

FEATURES, ATTRIBUTES AND BENEFITS:

- ★ Ideal medium to heavy duty protection during periods of construction, refit, new build, conversion and repair
- ★ Used to cover and protect decks on military ships, yachts, tennis courts, hospital corridors, nuclear power plant floors and much more
- ★ Warehoused in OSHA Safety Blue in 14 mil and 30 mil, in our most popular sizes
- ★ U.S. Navy approved
- ★ Passes NFPA 701-04 Test 1 (small scale) Flammability Test
- ★ Passes BS2782: Part 1: Method 141: 1986, EN2825 and EN2826, BS476: Part 12: 1991 Ignition Source C and Large Flame Test to LPS 1207: 1994 Section 3.1.3
- ★ Passes Federal GSA Standard 191 Method 5903 Fire Retardant Test
- ★ These films have smooth bottom sides to eliminate pattern imprinting problems encountered with embossed films
- ★ Tested to ASTM C1028-96, anti-slip, anti-skid - Average SCOF 0.73
- ★ Tapes easily in place; easy to cut and size around permanent objects; removes easily; saves time and money
- ★ Excellent short and long term protection
- ★ Deck Cover™ is easy to clean on the job, and is reusable
- ★ 100% made in the U.S.A.
