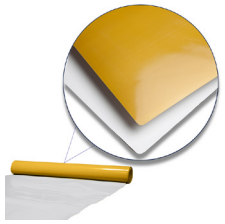
Crawl Space Vapor Barrier Product Line Card

Americover



Product	10 Mil Pro Crawl Anti-Mold	10 Mil Pro Crawl Barrier	20 Mil Vapor Block Plus	20 Mil String Reinforced	8 & 12 Mil String Reinforced	6 Mil String Reinforced
Feature Value	Best Choice for high vapor resistance and mold prevention	Great Value for a high performance vapor barrier	An EVOH vapor barrier tested specifically for Radon	Top of the Line for puncture and vapor resistance	Medium-Heavy Duty protection against vapor transmission	Economical Choice when budget is an overriding concern
Cost per Square Foot	$$+	$$	$$$$$	$$$$$	$$$-$$$$	$
Water Vapor Permeance	.022 perms	.022 perms	.0098 perms	.022 perms	.039 perms (8 mil) .023 perms (12 mil)	.042 perms
Meets ASTM E1745 Class A, B, C Vapor Retarder Standards	✓	✓	✓	✓	✓	✓
Passes ASTM G21 Mold Resistance Standards	✓	N/A	N/A	N/A	N/A	N/A
Ships UPS	✓	✓	X	X	X	✓
Soil containing large rocks or broken concrete. Suitable for Heavy Foot Traffic and storage.	X	X	✓	✓	X	X
Soil containing small tree roots or pea gravel. Suitable for minimal foot traffic and light storage.	✓	✓	✓	✓	✓	X
Soil without the presence of rocks or debris. Suitable for areas without traffic or storage.	✓	✓	✓	✓	✓	✓

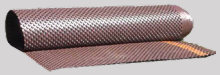
Drainage Boards - Used in Under Slab Foundations, on Foundation Walls, and in the Crawl Space to control the flow of water and prevent water pooling.

EnkaDrain is a drainage mat with a drainage core made of fused, entangled filaments bonded to a filtering non-woven geocompsite fabric.



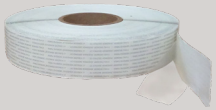
Dimpled membrane board made with a polypropylene geotextile and hdpe can be used in both vertical and horizontal applications.

Christmas Tree Fasteners - Used to attach a vapor barrier to the foundation wall.

Christmas Tree Ratchet Fasteners are made of heavy duty nylon with a 1/4" diameter, flat white head and conical tip. These sturdy fasteners work with a 3/16 masonry bit. Drill holes through the vapor barrier and through the seal tape into the block. If you drill through the seal tape you will prevent the plastic from peeling off when you remove the drill. Sold in packs of 100 or 500

Double Sided Tapes - Used between overlapping vapor barrier panels and between the vapor barrier and the structure

Butyl Tape
- 20 mil thick butyl rubber adhesive with a lightweight reinforcement to prevent stretching.
- Roll Size: 1.5" x 100'



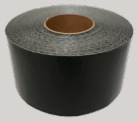
Clear DS Tape
- 10 mil Clear , low-stretch core film coated on both sides with a transparent, synthetic rubber adhesive.
- Roll Size: Available in 1.5" x 300'

Seaming/Sealing Tapes - Used to seam panels of vapor barrier to other panels and seal it to the walls or frame. Great for patch and repair as well.

Fire Retardant Tapes meet or exceed NFPA 701 fire safety standards and recommended for use with fire retardant vapor barriers.

225FR Tape
- White, printed fire retardant duct tape
- Available in 2" x 180' or 3" x 180'

FR Vapor Tape
- White, non-printed fire retardant vapor tape
- Available in 4" x 180'



R25B Tape
- Aggressive black polymer vapor tape that can withstand direct sunlight
- Available in 4" x 100'

Vapor Tape
- Heavy duty white polyethylene film vapor tape
- Available in 4" x 180'

Reinforced Seaming Tape
- Highly tear resistant vapor tape offered in White,Clear, or Black
- Available in 4" x 50'
