

DUCTCAP®

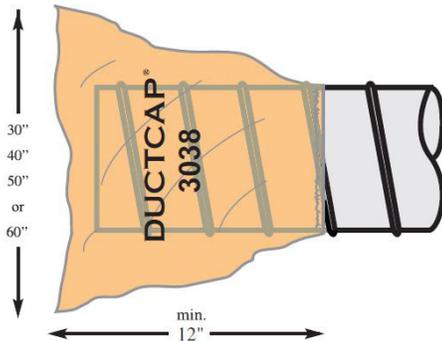

PROTECTIVE DUCT COVER BAGS

The Ductcap® cover is designed to protect the entire air handling system during construction. Using a Ductcap® cover on all unfinished ends, helps prevent moisture, dirt particles, dust and debris from entering the air handling system. The reusable Ductcap® cover is designed to be installed by stretching the elastic band over the round branch or any other open end. No tape, screws or nylon ties are needed to secure the Ductcap® cover to the duct.

Styles 0610 & 1014 are manufactured from .002 mil. thickness orange polypropylene plastic with a 1/4" elastic band.

- ▶ #0610 - DUCTCAP® fits 6" through 9" round or 16-31 linear inches
