

Dividing Protective Curtain

DPC Fire Retardant Clear Vinyl™

PRODUCT DESCRIPTION

Americover's New Fire Retardant Vinyl Covering is ideal for creating desk top and hanging barriers in hospitals, salons, schools, restaurants, offices, anywhere separation is needed.

This 12 mil heavy duty film can be glued together to create multiple widths - the roll width is 4.5'. Using vinyl glue or tape you can create wider curtains. [8'11", 13.3', 17.71', 22.13', 26.5' (based on a 1" seam)].

Available in pre-hemmed curtains 4.5' x 8' to use with a tension rod (not included) - 15 per box.

- ▶ Fire Retardant to NFPA 701-2019 Test 2
- ▶ Made 100% in the USA
- ▶ Easy to clean

CUSTOM LENGTH

In the roll stock you can create whatever length you require. You can just hang the material with a tension rod, 1/2 inch PVC pipe or rope, fold the vinyl over 4" to create a hem.

Using the vinyl glue run a bead of glue 1/2" from edge where the fold and material meet.

Vinyl glue sets tacky in 2 minutes and ready for use in 1 hr. Use clear glue to get clear sight lines.

CREATE A WINDOW

Vinyl can also be used to create a window in plastic sheeting.

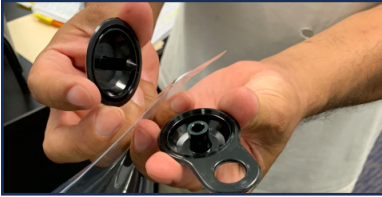

In the photo you see our DS2FR reinforced fire retardant 6 mil plastic with the windows and zipper openings.

PRE-HEMMED

Pre-hemmed 4.5' x 8' curtain. Curtains are easy to glue sections together to create larger dividers.

Dividing Protective Curtain **Fire Retardant** Vinyl

GROMMET SNAP

There is also a snap-on grommet you can use instead of cutting the vinyl. (TG250-20)

PROPERTIES

Properties	Test Direction/Test Method	Values
Yield (basis weight)	-	12 mil
Color	-	Clear
