

To Whom It May Concern:

Dura Skrim® DS20WW is manufactured using only high quality, prime grade resins. No recycled materials are used.

Per information provided by our suppliers and referencing the list of acceptable substances and limitations in FDA Regulation 21, section 177.1520 (Olefin Polymers for use as Basic Components of Single and Repeated Use Food Contact Surfaces) and section 178.3297 (Colorants for Polymers), Raven Industries states that, to the best of our knowledge, DuraSkrim DS20WW does not contain any unsafe components and may be considered suitable to be used as an article or component of an article intended for use in contact with food, without temperature or food-type restrictions, subject to technical suitability.

DuraSkrim products are manufactured solely in the United States of America.

Thanks,
