

PRO Shield

PRODUCT DESCRIPTION

The PRO Shield provides a flexible light weight, sturdy, clear plastic film barrier for desks, counters, or table tops. It is the first no tools required shield that is customizable and available in 30 size options.

The PRO Shield is portable, easy to install or remove in as little as 2 minutes. Making it an easy alternative for added protection in restaurants, schools, hospitals, retail, and workspaces. Average weight is 8 pounds.

Choose from Straight, L-shaped, or U-shaped screens for desk wraps. Select a straight base or an arch at the bottom for service desks. The hospitality gap is a 6" arch cut into the base of the flexible plastic shield to allow objects and hands to pass underneath, while still maintaining social distancing.

EXAMPLE SETUP

- ▶ 32" screen, when placed on a desk, will reach the same height as most office cubical partitions.
- ▶ A 24" screen offers a shield between people when seated at a table, beside or across from each other.
- ▶ An 18" screen is good to extend current partitions that may already be in place, such as between booths in a restaurant.
- ▶ Multiple L or U shaped screens mounted on long or large multi person tables can divide side by side or opposed seating.

EASY TO INSTALL

Quick installation requires no tools for assembly. Simply install the base and posts.

Four mounting options are available: Adhesive disk and magnet, desk clamp with magnet, adhesive disk with 3-screw plate*, or desk clamp with 3-screw plate*.

*The screws are part of the disk and do **not** damage the desk.
