

WHITE FELT TAPE

WHITE GREENHOUSE FELT TAPE

PRODUCT DESCRIPTION

White Felt Tape comes in 1/4" thicknesses, and is 1.5" wide. This White Felt Tape provides a soft barrier between the greenhouse frame and cladding. Using this tape prevents heat from penetrating to the poly sheeting and avoids degradation, as the film will not rub against the (PVC) hoop. This tape allows your greenhouse covers to smoothly pass over the pipe structure without catching or snagging when covering and uncovering your greenhouse. It is highly recommended to apply the White Felt Tape to any area where the poly film could potentially rub against the hoop piping, causing degradation of the film.

APPLICATIONS

- ▶ Greenhouse frame lining
- ▶ Metal Frame Liner
- ▶ PVC Piping Liner

PRODUCT USE

Use Felt Tape on the structure of your greenhouse so that the plastic sheeting does not rub on the bare PVC piping structure. Also helps add an insulation barrier between your greenhouse structure and greenhouse cover. Apply on clean, dry surfaces only.

SIZE AND PACKAGING

Each roll is 1.5" x 50' and sold per roll.

PROPERTIES	VALUES
Construction	Needle-punched felt fiber (50% post-consumer recycled polyester/50% virgin polyester)
Weight	22-26 oz/yd ² dry
Thickness	0.220"-0.260"
Width	As specified
Coating	Acrylic adhesive
Liner	Polyester - non fibrous release liner
